More Than 50	Unlimited upgrades, e-mail support, and remote learning included	\$ 480.00 USD	\$ 280.00 USD	\$ 200.00 USD * N

About Licenses:

The license validity period is UNLIMITED.

Each license means covering a camera (at the same time) to analysis the online (real-time) traffic – of a Highway / Road / Street (Permanently), that can include several lanes, with one or two directions. Furthermore, you can use the license to analyze the offline traffic on the recorded video files (Unlimited).

Notes:

- “A Camera” is not meant to a specific camera, as you can switch between several cameras ! But If you want to analyze the online (real-time) traffic of the several highways / roads / streets – (concurrently), then for each Camera, you will need an Independent license.
- Each license is related to a specific Computer so you cannot use your license on several Computers! If you face any problem with the computers in the future, We have several solutions for this situation, For example, We will disable (deactivate) your previous license and we will give you a new license !
- Discount on each purchase (each payment) will be calculated independently.

Support:

You can always download new versions and upgrades as soon as they released (**Forever - Free**). Also, if you face any problems, or need help with this product, you can contact our Support Team via e-mail. We will do our best to help you as soon as possible.

If you have any questions please do not hesitate to contact us. Our experts are ready to answer all of your questions.
